Wichita, Kansas 67202

Re: Inspections Conducted as Follow-ups to the April 5, 1984
RCRA Inspection.

Mr. Trombold:

On July 16, 1984, I met with you and Chuck Trombold,
and on August 16, 1984, I met with Chuck Trombold
only, at the New York Street facility, to conduct
follow-up RCRA inspections.

Based on information provided and conditions observed
during the inspections, your facility, at the time of
the most recent inspection, was found to be in substantial
compliance with the state and federal hazardous waste
regulations.

Your cooperation with the hazardous waste management
program is appreciated.

Sincerely,

Dale T. Stuckey

265.176

4. Are containers holding ignitable or active waste located at least 15 meters (50 feet) from the facility's property line?

YES NO NA

265.177

5. If waste in containers is incompatible with other materials stored nearby, in other containers, piles, open tanks, or surface impoundments, are the containers separated from the other materials by means of a dike, berm, wall, or other device?

YES NO NA

Management of Containers:

☐ Adequate ☐ Inadequate ☐ Not Applicable

Note: Fill out applicable checklists for specific facility types (i.e. tanks, surface impoundments, piles, land treatment, landfills).

Additional Information and CONCLUSIONS

- 1) The fire extinguishers in the warehouse had all been inspected and were charged up.
- 2) Attached is the BTU analyses Chuck mailed to me. The decanted water settings from the stills will go to an injection well-probably Lamberton in Oklahoma.
- 3) Only two deteriorated drums left in Warehouse "C" that are dented and rusted.
- 4) No open drums
- 5) The radioactive drums from instrument stripping have been shipped back to original generator. Bureau of Radiation Health is aware of this.

Only 150 drums left in Warehouse "C". About 10 in the staging area.

Reply to Wichita office

Dear Mr. Stuckey:

I have heat content information on the materials we generate:

Acetone still bottoms	13,500	(BTU/lb)
111 Trichloroethane still bottoms	18,800	
Enamel still bottoms	15,800	
Decanted settlings	7,700	
Filter cake	15,800	
Lacquer still bottoms	13,800	

All these results came from Systech Corporation.

If you need anymore information, please let me know.

Sincerely,

Chuck Trombold
